INTERNATIONAL PROGRAMS
The University of Kansas

Project Global Officers, a federally-funded scholarship program, enables ROTC students to study critical languages and develop regional expertise and intercultural skills.

The University of Kansas is one of only 25 universities across the nation that can award Project GO scholarships. Over the summer, students from around the nation participate in intensive language study at KU or in KU study abroad programs.

At KU, Project GO has funded 66 scholarships over the past three years and supported academic year language maintenance tutoring for 26 students.

“While extremely fast paced, it was a phenomenal program that taught me a ton in eight weeks,” said University of Notre Dame student Christopher Hebig, who studied Elementary Russian at KU in 2014. “I was able to retain much of it through tutoring or practice.”

KU will offer introductory-level courses in Arabic, Chinese, Japanese, Korean, and Russian and study abroad programs in Morocco and India.

KU student Darra Stuart holds the base of an approximately 4,500-year old storage pot unearthed during an archaeological dig in Israel. Stuart and two fellow KU students participated in the five-week 2015 program.
